

Mazda Rx-8 (Surround)

Filename	Description	SampleRate	BitDepth	Channels	Duration
Mazda_Rx8_engine_1.wav	Onboard recording of a very special Mazda Rx-8 equipped with the famous Mazda rotary (wankel) engine. The recording consists of six channels, left-right exhaust, left-right interior and two engine channels. This car has a very special sound with lots of interesting details such as turbonoise (wastegate) and backfires. We have recorded a whole outing on a trackday and you can hear everything from start, idle, reving, trackdriving to engine stop. It even includes a couple of missed gearshifts.	48000	24	1	14:49.742
Mazda_Rx8_engine_2.wav	Onboard recording of a very special Mazda Rx-8 equipped with the famous Mazda rotary (wankel) engine. The recording consists of six channels, left-right exhaust, left-right interior and two engine channels. This car has a very special sound with lots of interesting details such as turbonoise (wastegate) and backfires. We have recorded a whole outing on a trackday and you can hear everything from start, idle, reving, trackdriving to engine stop. It even includes a couple of missed gearshifts.	48000	24	1	14:49.742
Mazda_Rx8_exhaust_L.wav	Onboard recording of a very special Mazda Rx-8 equipped with the famous Mazda rotary (wankel) engine. The recording consists of six channels, left-right exhaust, left-right interior and two engine channels. This car has a very special sound with lots of interesting details such as turbonoise (wastegate) and backfires.
