

Electric sewing machines

Filename	Description	BitDepth	SampleRate	Channels	Duration
adjusting needle and fabric placement, needle adjustments.wav		24	96000	2	00:05
close room perspective sewing machine runs with slight speed variations.wav		24	96000	2	00:09
needle placement horizontal adjustments.wav		24	96000	2	00:01
place fabric onto sewing bed, safety latch lock and short run, reveal fabric.wav		24	96000	2	00:05
pull up thread cover tug and release large amount of knotted tangled thread.wav		24	96000	2	00:02
pulling and tugging out masses of knotted tangled up thread from inner spool.wav		24	96000	2	00:04
pulling large amounts of thread very quickly take two.wav		24	96000	2	00:02
pulling large amounts of thread very quickly.wav		24	96000	2	00:01
pulling thread and needle adjustments.wav		24	96000	2	00:03
quick needle horizontal adjustment take two.wav		24	96000	2	00:02
quick needle horizontal adjustment.wav		24	96000	2	00:02
sewing machine attempt to spool up thread.wav		24	96000	2	00:02
sewing machine long run at full speed lift up safety latch lever.wav		24	96000	2	00:10
sewing machine long run, small rev at end, safety lever lift up and fabric repositioned.wav		24	96000	2	00:09
sewing machine run at various speeds take two.wav		24	96000	2	00:10
sewing machine run at various speeds.wav		24	96000	2	00:13
sewing machine runs full speed, backs off, returns to full speed, stop, safety lever release as it stops, thread spooled manually.wav		24	96000	2	00:07
sewing machine runs nearly full speed, increase to full, safety latch lock lift.wav		24	96000	2	00:08
sewing machine safety latch lock lever down, long full speed run take three.wav		24	96000	2	00:05
sewing machine safety latch lock lever down, long full speed run take two.wav		24	96000	2	00:05
sewing machine safety latch lock lever down, long full speed run.wav		24	96000	2	00:09
sewing machine safety latch lock lever down, short run then lift fabric.wav		24	96000	2	00:04
sewing machine safety latch lock runs normally full speed two quick thread tugs shortly after.wav		24	96000	2	00:05
sewing machine safety lever down short run lever lift up then down again.wav		24	96000	2	00:06
sewing machine safety lever down, long run with slight speed variations, stops and thread manually spooled.wav		24	96000	2	00:12
sewing machine safety lever down, long run with speed variations, stops and thread manually spooled.wav		24	96000	2	00:12
sewing machine safety lever down, long run, weird stop.wav		24	96000	2	00:08
sewing machine safety lever down, short run, lever lift up, long needle and thread adjustments take two.wav		24	96000	2	00:09
sewing machine safety lever down, short run, lever lift up, long needle and thread adjustments.wav		24	96000	2	00:10
sewing machine safety lever down, very short run.wav		24	96000	2	00:03

sewing machine short low speed rev safety lever lift up.wav	24	96000	2	00:02
sewing machine short run at various speeds, safety lever down, thread adjustment.wav	24	96000	2	00:07
sewing machine short run at various speeds.wav	24	96000	2	00:08
sewing machine short run lift up safety lever take two.wav	24	96000	2	00:05
sewing machine short run lift up safety lever.wav	24	96000	2	00:04
sewing machine very short run.wav	24	96000	2	00:02
sewing machine, set up needle and spool thread slightly, place fabric down, safety lever down, run, stops and release safety lever.wav	24	96000	2	00:17
sewing machine, small thread and needle movements.wav	24	96000	2	00:01
small manual thread spooling with click at end take two.wav	24	96000	2	00:02
small manual thread spooling with click at end.wav	24	96000	2	00:01
troubled sewing machine tries to run with tangled up thread fast, rhythmical, mechanical.wav	24	96000	2	00:05
two very short runs with fabric setup and safety lever clunks, thread spooled manually take two.wav	24	96000	2	00:12
two very short runs with fabric setup and safety lever clunks, thread spooled manually.wav	24	96000	2	00:14
lightly processed recording of scissors cutting heavy fabric.wav	24	96000	2	00:40
sewing machines preview 1.mp3	256	44100	2	01:34
cut taught thread with scissors take five.wav	16	48000	2	00:00
cut taught thread with scissors take four.wav	24	96000	2	00:00
cut taught thread with scissors take six.wav.wav	16	48000	2	00:00
cut taught thread with scissors take three.wav	24	96000	2	00:01
cut taught thread with scissors take two.wav	24	96000	2	00:00
cut taught thread with scissors.wav	24	96000	2	00:00
full speed dry run relay clicks take two.wav	24	96000	2	00:07
full speed dry run relay clicks.wav	24	96000	2	00:15
gently lift up presser foot.wav	24	96000	2	00:01
lift up presser foot accidentally bump top spool of thread take two.wav	24	96000	2	00:01
lift up presser foot accidentally bump top spool of thread.wav	24	96000	2	00:01
lifting up presser foot faint material rustling take two.wav	24	96000	2	00:01
lifting up presser foot faint material rustling.wav	24	96000	2	00:02
long clunky variable low speed run r-05.wav	24	96000	2	00:34
long full speed clanky run pull out thread at end.wav	24	96000	2	00:10
long nearly full speed run set presser foot down, run, stop, release and thread adjustments after.wav	24	96000	2	00:09
long run at slow speeds and speed variations.wav	24	96000	2	00:15
long run increase speed hold steady then stop.wav	24	96000	2	00:10
long run increase speed twice steppy.wav	24	96000	2	00:09
long run presser foot down, relay click start, run, relay off, lift foot and squeaky chair.wav	24	96000	2	00:18

long run slowest speed gradually increasing throughout.wav	24	96000	2	00:16
long run variable speed turns to steady then stop and lift up presser foot.wav	24	96000	2	00:11
long run with slightly varying speeds throughout and interesting click at stop.wav	24	96000	2	00:11
long run, relay click start and stop run take two.wav	24	96000	2	00:10
long run, relay click start and stop run.wav	24	96000	2	00:16
long slower run set presser foot, run, release pedal and presser, lift fabric take two.wav	24	96000	2	00:12
long slower run set presser foot, run, release pedal and presser, lift fabric.wav	24	96000	2	00:16
long smooth steady run .wav	24	96000	2	00:05
long smooth steady run turns clanky near end.wav	24	96000	2	00:07
long steady run occasional struggles to penetrate material.wav	24	96000	2	00:12
long steady run stop presser foot up pull thread and fetch scissors.wav	24	96000	2	00:15
long tentative clanky run through embroidered material presser foot lift up take two.wav	24	96000	2	00:18
long tentative clanky run through embroidered material presser foot lift up.wav	24	96000	2	00:20
long tentative clanky run through embroidered material.wav	24	96000	2	00:18
long variable speed run audible relay clicks take three.wav	24	96000	2	00:11
long variable speed run audible relay clicks take two.wav	24	96000	2	00:14
long variable speed run audible relay clicks.wav	24	96000	2	00:23
long very clanky run decrease speed hold steady needle strikes plate several times decrease to stop lift up presser foot.wav	24	96000	2	00:06
powering on left mic loud servo right mic clicky relays and power switch.wav	24	96000	2	00:03
presser foot clanks down small balance adjustment on squeaky wood floor afterward.wav	24	96000	2	00:01
presser foot clanks down small fabric movement r-05.wav	24	96000	2	00:01
presser foot down operate thread release wheel.wav	24	96000	2	00:03
presser foot down pushbutton auto reverse and knot.wav	24	96000	2	00:05
presser foot down tiny low speed run mechanical drone and rattle.wav	24	96000	2	00:02
presser foot is lifted up leather shifted into position.wav	24	96000	2	00:02
presser foot lift up extract thread fetch scissors.wav	24	96000	2	00:02
presser foot lift up pull out strand of thread from bottum spool take four.wav	24	96000	2	00:01
presser foot lift up pull out strand of thread from bottum spool take three.wav	24	96000	2	00:02
presser foot lift up pull out strand of thread from bottum spool take two.wav	24	96000	2	00:02
presser foot lift up pull out strand of thread from bottum spool.wav	24	96000	2	00:01
presser foot lifts up heavy fabric movement then tug on both spools of thread r-05.wav	24	96000	2	00:03
presser foot lifts up with clanks heavy fabric movement.wav	24	96000	2	00:01
presser foot set down gently.wav	24	96000	2	00:01
presser foot set down hard take two.wav	24	96000	2	00:01
presser foot set down hard.wav	24	96000	2	00:02

presser foot set down plastic mechanical bounces take four.wav	24	96000	2	00:01
presser foot set down plastic mechanical bounces take three.wav	24	96000	2	00:01
presser foot set down plastic mechanical bounces take two.wav	24	96000	2	00:01
presser foot set down plastic mechanical bounces.wav	24	96000	2	00:01
presser foot set down softly no clank.wav	24	96000	2	00:01
pressing loud clicky buttons very loud display and needle servo clunks.wav	24	96000	2	00:03
pull out tangled strand of thread quickly.wav	24	96000	2	00:01
pull out thread and fetch scissors sounds like an automobile starter motor r-05.wav	24	96000	2	00:02
pull out thread and fetch scissors sounds like an automobile starter motor.wav	24	96000	2	00:02
pull out thread then cut.wav	24	96000	2	00:02
pulling a strand of thread from upper spool take two.wav	24	96000	2	00:02
pulling a strand of thread from upper spool.wav	24	96000	2	00:02
pulling out a strand from lower thread r-05.wav	24	96000	2	00:01
pulling out a strand of broken thread.wav	24	96000	2	00:02
pulling out large masses of tangled knotted thread take five.wav	24	96000	2	00:03
pulling out large masses of tangled knotted thread take four.wav	24	96000	2	00:03
pulling out large masses of tangled knotted thread take three.wav	24	96000	2	00:02
pulling out large masses of tangled knotted thread take two.wav	24	96000	2	00:03
pulling out large masses of tangled knotted thread.wav	24	96000	2	00:10
pulling out strand of broken thread and rubber band effect.wav	24	96000	2	00:02
pulling thread from lower spool take two.wav	24	96000	2	00:01
pulling thread from lower spool.wav	24	96000	2	00:01
pushbutton auto reverse and knot low speed run audible clang take two.wav	24	96000	2	00:04
pushbutton auto reverse and knot low speed run audible clang.wav	24	96000	2	00:05
pushbutton auto reverse and knot take five.wav	24	96000	2	00:04
pushbutton auto reverse and knot take four.wav	24	96000	2	00:04
pushbutton auto reverse and knot take seven.wav	24	96000	2	00:04
pushbutton auto reverse and knot take six.wav	24	96000	2	00:04
pushbutton auto reverse and knot take three.wav	24	96000	2	00:03
pushbutton auto reverse and knot take two.wav	24	96000	2	00:04
pushbutton auto reverse and knot very weird and faint mechanical lower harmonics.wav	24	96000	2	00:05
pushbutton auto reverse and knot.wav	24	96000	2	00:04
quick rev up to full speed then stop take two.wav	24	96000	2	00:02
quick rev up to full speed then stop.wav	24	96000	2	00:02
quick rev up to near full speed then stop foot pedal release audible.wav	24	96000	2	00:01

quickly pulling large amount of thread.wav	24	96000	2	00:01
rattly low speed run.wav	24	96000	2	00:05
rattly short low speed run gradually decrease to stop.wav	24	96000	2	00:05
rattly steady run decrease speed to stop at end of run.wav	24	96000	2	00:13
sewing machine attempts to run relay click stuck buzz and error beeps.wav	24	96000	2	00:04
sewing machine comes to a clanking buzzing beeping halt.wav	24	96000	2	00:03
short attempt to wind up thread onto lower spool.wav	24	96000	2	00:03
short full speed run presser foot up.wav	24	96000	2	00:05
short low speed run presser foot up tug on thread fetch scissors take two.wav	24	96000	2	00:03
short low speed run presser foot up tug on thread fetch scissors.wav	24	96000	2	00:05
short low speed run.wav	24	96000	2	00:05
short mostly smooth run presser foot lift up with clanks.wav	24	96000	2	00:06
short mostly smooth variable speed run.wav	24	96000	2	00:06
short run at full speed r-05.wav	24	96000	2	00:05
short run increase speed steppy hold steady then decrease to stop.wav	24	96000	2	00:06
short run low speed increase rpm stop audible relay clicks and relays take two.wav	24	96000	2	00:03
short run low speed increase rpm stop audible relay clicks and relays.wav	24	96000	2	00:05
short run near full speed increase to full light struggles to cut through material r-05.wav	24	96000	2	00:07
short run near full speed slow to stop r-05.wav	24	96000	2	00:05
short run quick press on foot pedal then decrease to steady slower speed.wav	24	96000	2	00:04
short slow run presser foot down, run, release, mechanical rattles needle adjustments afterward.wav	24	96000	2	00:06
short slow run presser foot down, run, release, mechanical rattles.wav	24	96000	2	00:10
short struggle with onboard controls and extract small strand of thread take two.wav	24	96000	2	00:02
short struggle with onboard controls and extract small strand of thread.wav	24	96000	2	00:01
short variable speed run faint thumping.wav	24	96000	2	00:06
spooling up thread at slow speed increase slightly and remain steady.wav	24	96000	2	00:32
spooling up thread maximum speed long run faint audible thread hickups.wav	24	96000	2	00:41
spooling up thread several speed variations.wav	24	96000	2	00:24
tentative first run presser foot clunks down runs then is lifted.wav	24	96000	2	00:16
troubled run near full speed audible rattling clanking.wav	24	96000	2	00:04
trying to remove an unholy tangle of thread.wav	24	96000	2	00:07
turning thread release wheel back and forth a few times.wav	24	96000	2	00:03
very long minimum speed run various rattles and low muffled thumps small speed variations.wav	24	96000	2	00:36
very short low speed run take three.wav	24	96000	2	00:02
very short low speed run take two.wav	24	96000	2	00:02

very short low speed run.wav	24	96000	2	00:02
very short near full speed run take two.wav	24	96000	2	00:03
very short near full speed run.wav	24	96000	2	00:02
very short rev up then back down relay clicks.wav	24	96000	2	00:01
very short run increase speed hold steady then increase briefly and stop.wav	24	96000	2	00:02
very short run increase to full rpm then decrease to stop r0-5.wav	24	96000	2	00:02
very short run mechanical thump near end relay click.wav	24	96000	2	00:01
very short run presser foot down, run, release, mechanical, rattles, relays and clicks.wav	24	96000	2	00:08
very short run quickly press hard on foot pedal and slow down to stop.wav	24	96000	2	00:02
very short run struggles to penetrate fabric.wav	24	96000	2	00:03
very short run weird rattles and faint pulsing mechanical wering.wav	24	96000	2	00:03
very short thumpy troubled run relay clicks.wav	24	96000	2	00:01
wind up a nonexistent spool of thread with screaming motor and error code.wav	24	96000	2	00:03
wind up thread to lower spool both spools rattling about take three.wav	24	96000	2	00:39
wind up thread to lower spool both spools rattling about take two.wav	24	96000	2	00:28
wind up thread to lower spool both spools rattling about.wav	24	96000	2	00:51
wind up thread to lower spool r-05 take two.wav	24	96000	2	00:36
wind up thread to lower spool r-05.wav	24	96000	2	00:51
wind up thread to lower spool take five.wav	24	96000	2	00:38
wind up thread to lower spool take four.wav	24	96000	2	00:22
wind up thread to lower spool take six.wav	24	96000	2	00:29
wind up thread to lower spool take three.wav	24	96000	2	00:27
wind up thread to lower spool take two.wav	24	96000	2	00:21
wind up thread to lower spool weird rattling throughout.wav	24	96000	2	00:14
wind up thread to lower spool.wav	24	96000	2	00:35
winding up a spool of thread machine casing buzzes and faint upper thread rattling.wav	24	96000	2	00:26
