

# Multichannel buttons and switches

| Filename                                                                                                                    | Description                                                                                   | BitDepth | SampleRate | Channels | Duration |
|-----------------------------------------------------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------|----------|------------|----------|----------|
| 001 Plastic push button medium size - Barcus Berry.wav                                                                      | Metallic, full-bodied, with short reverb tail, Hameg oscilloscope                             | 24       | 192000     | 1        | 00:13    |
| 002 Plastic five step switch - one step at a time - Barcus Berry.wav                                                        | Metallic, with short reverb tail, Hameg oscilloscope                                          | 24       | 192000     | 1        | 00:16    |
| 003 Plastic five step switch - multiple steps at a time - fast - Barcus Berry.wav                                           | Metallic, full-bodied, with short reverb tail, Hameg oscilloscope                             | 24       | 192000     | 1        | 00:42    |
| 004 Plastic five step switch - multiple steps at a time - slow - Barcus Berry.wav                                           | Dull, Hameg oscilloscope                                                                      | 24       | 192000     | 1        | 00:14    |
| 005 Plastic push button - small size - fast - Barcus Berry.wav                                                              | Metallic, full-bodied, dirty texture, with short reverb tail, Hameg oscilloscope              | 24       | 192000     | 1        | 00:22    |
| 006 Plastic push button - small size - slow - Barcus Berry.wav                                                              | Metallic, full-bodied, dirty texture, Hameg oscilloscope                                      | 24       | 192000     | 1        | 00:20    |
| 007 Plastic three step switch - small size - one step at a time - Barcus Berry.wav                                          | Dull, slow attack, Hameg oscilloscope                                                         | 24       | 192000     | 1        | 00:10    |
| 008 Plastic three step switch - small size - multiple steps at a time - slow - Barcus Berry.wav                             | Full-bodied, Hameg oscilloscope                                                               | 24       | 192000     | 1        | 00:06    |
| 009 Plastic three step switch - small size - multiple steps at a time - fast - Barcus Berry.wav                             | Metallic, full-bodied, with short reverb tail, Hameg oscilloscope                             | 24       | 192000     | 1        | 00:19    |
| 010 Plastic push button - medium size - slow - Barcus Berry.wav                                                             | Metallic, full-bodied, slight reverb tail, Hameg oscilloscope                                 | 24       | 192000     | 1        | 00:07    |
| 011 Plastic push button - medium size - fast - Barcus Berry.wav                                                             | Dirty texture, grit, scrape, with short reverb tail, Hameg oscilloscope                       | 24       | 192000     | 1        | 00:13    |
| 012 Metal rotary switch knob - Barcus Berry.wav                                                                             | Metallic, dull, Vingtor tube amp                                                              | 24       | 192000     | 1        | 00:29    |
| 013 Metal toggle switch - two step - small size - Barcus Berry.wav                                                          | Dull, pop, Dynacord Twen                                                                      | 24       | 192000     | 1        | 00:11    |
| 014 Plastic toggle switch - two step - medium size - Barcus Berry.wav                                                       | Click, dull, hollow, overdriven, tick, Dynacord Twen                                          | 24       | 192000     | 1        | 00:31    |
| 015 Plastic push button - large size - slow - Barcus Berry.wav                                                              | Soft, rattle, Behringer Powerplay                                                             | 24       | 192000     | 1        | 00:13    |
| 016 Plastic push button - large size - fast - Barcus Berry.wav                                                              | Click, rattle, Behringer Powerplay                                                            | 24       | 192000     | 1        | 00:18    |
| 017 Plastic push button - small size - slow - Barcus Berry.wav                                                              | Click, thin, hollow, Behringer Powerplay                                                      | 24       | 192000     | 1        | 00:17    |
| 018 Plastic push button - small size - fast - Barcus Berry.wav                                                              | Click, hollow, tick, Behringer Powerplay                                                      | 24       | 192000     | 1        | 00:26    |
| 019 Plastic push button - large size - Barcus Berry.wav                                                                     | Hollow, rattle, Tascam 122 MK2                                                                | 24       | 192000     | 1        | 00:22    |
| 020 Plastic push button - medium size - eject tape - Barcus Berry.wav                                                       | Mechanical, hollow, rattle, spring, Tascam 122 MK2                                            | 24       | 192000     | 1        | 00:23    |
| 021 Plastic push button - small size - slow - Barcus Berry.wav                                                              | Dull, hollow, Tascam 122 MK2                                                                  | 24       | 192000     | 1        | 00:07    |
| 022 Plastic push button - small size - fast - Barcus Berry.wav                                                              | Soft, dull, Tascam 122 MK2                                                                    | 24       | 192000     | 1        | 00:11    |
| 023 Plastic push button - small size - slow - Barcus Berry.wav                                                              | Hollow, dull, Tascam 122 MK2                                                                  | 24       | 192000     | 1        | 00:08    |
| 024 Plastic push button - small size - fast - Barcus Berry.wav                                                              | Hollow, dull, Tascam 122 MK2                                                                  | 24       | 192000     | 1        | 00:08    |
| 025 Plastic push button - small size - slow - Barcus Berry.wav                                                              | Hollow, thin, slight ping, Tascam 122 MK2                                                     | 24       | 192000     | 1        | 00:18    |
| 026 Plastic push button - small size - fast - Barcus Berry.wav                                                              | Slight bassy thump, ping, Tascam 122 MK2                                                      | 24       | 192000     | 1        | 00:11    |
| 027 Plastic hollow cylindrical push button - medium size - slow - Barcus Berry.wav                                          | Scrape, spring, Studer B67 tape machine                                                       | 24       | 192000     | 1        | 00:15    |
| 028 Plastic hollow cylindrical push button - medium size - fast - Barcus Berry.wav                                          | Slight squeak, rattle, Studer B67 tape machine                                                | 24       | 192000     | 1        | 00:06    |
| 029 Plastic push button - large size - slow - Barcus Berry.wav                                                              | Metallic, hollow, slight reverb tail, Studer B67 tape machine                                 | 24       | 192000     | 1        | 00:11    |
| 030 Plastic push button - large size - fast - Barcus Berry.wav                                                              | Metallic, spring, slight reverb tail, Studer B67 tape machine                                 | 24       | 192000     | 1        | 00:06    |
| 031 Plastic push button - large size - slow - Barcus Berry.wav                                                              | Metallic, hollow, mechanism, slight reverb tail, Studer B67 tape machine                      | 24       | 192000     | 1        | 00:06    |
| 032 Sliding metal lever - large size - medium speed - Barcus Berry.wav                                                      | Metallic, mechanical, spring, release, slight reverb tail, Studer B67 tape machine            | 24       | 192000     | 1        | 00:22    |
| 033 Sliding metal lever - large size - slow - Barcus Berry.wav                                                              | Metallic, mechanical, spring, release, slight reverb tail, Studer B67 tape machine            | 24       | 192000     | 1        | 00:11    |
| 034 Three step metal toggle switch - small size - slow, one step at a time - Barcus Berry.wav                               | Dull, click, Studer B67 tape machine                                                          | 24       | 192000     | 1        | 00:37    |
| 035 Three step metal toggle switch - small size - fast, several steps at a time - Barcus Berry.wav                          | Click, tick, Studer B67 tape machine                                                          | 24       | 192000     | 1        | 00:29    |
| 036 Three step metal toggle switch - small size - medium speed, several steps at a time - Barcus Berry.wav                  | Click, dull, tick, Studer B67 tape machine                                                    | 24       | 192000     | 1        | 00:13    |
| 037 Three step metal toggle switch - large size - slow - one step at a time - Barcus Berry.wav                              | Metallic, hollow, dissonant tone, Tandberg series 1200x tape machine                          | 24       | 192000     | 1        | 00:19    |
| 038 Three step metal toggle switch - large size - fast - several steps at a time - Barcus Berry.wav                         | Click, Tandberg series 1200x tape machine                                                     | 24       | 192000     | 1        | 00:17    |
| 039 Three step metal rotary switch - medium size - slow - one step at a time - Barcus Berry.wav                             | Mechanical, metallic, spring, release, slight reverb tail, Tandberg series 1200x tape machine | 24       | 192000     | 1        | 00:31    |
| 040 Four way metal joystick - medium size - slow - one step at a time - horizontal movement - Barcus Berry.wav              | Scrape, dirty texture, latch, lock, snap, Tandberg series 1200x tape machine                  | 24       | 192000     | 1        | 00:43    |
| 041 Four way metal joystick - medium size - extra slow - one step at a time - horizontal movement - Barcus Berry.wav        | Scrape, dirty texture, latch, lock, snap, Tandberg series 1200x tape machine                  | 24       | 192000     | 1        | 00:21    |
| 042 Four way metal joystick - medium size - fast - one step at a time - horizontal movement - Barcus Berry.wav              | Scrape, dirty texture, latch, lock, snap, Tandberg series 1200x tape machine                  | 24       | 192000     | 1        | 00:28    |
| 043 Four way metal joystick switch - medium size - medium speed - one step at a time - vertical movement - Barcus Berry.wav | Scrape, dirty texture, latch, lock, snap, Tandberg series 1200x tape machine                  | 24       | 192000     | 1        | 00:15    |
| 044 Four way metal joystick - medium size - slow speed - one step at a time - vertical movement - Barcus Berry.wav          | Scrape, dirty texture, latch, lock, snap, Tandberg series 1200x tape machine                  | 24       | 192000     | 1        | 00:25    |
| 045 Two step plastic toggle switch - medium size - slow - Barcus Berry.wav                                                  | Click, full-bodied, tick, slight reverb tail, Tandberg series 1200x tape machine              | 24       | 192000     | 1        | 00:21    |
