

Wind gusts

This evocative atmospheric sound library captures the raw power and turbulent energy of a violent coastal storm along the Adriatic coastline in Montenegro. Powered by the powerful Scirocco, a warm, Mediterranean storm wind notorious for bringing intense gusts, dramatic pressure drops, and heavy coastal swells, this collection focuses entirely on dynamic wind behavior across both open exterior landscapes and sheltered interior structures.

Whether you need to design immersive ambient backgrounds for film and television, recreate tense survival game environments, or layer realistic environmental forces into cinematic soundscapes, this library offers an exceptionally rich, organic set of acoustic perspectives.

Dual-Perspective Spatial Capture: Features a balanced mix of wide exterior recordings, capturing howling gale-force gusts and open-air turbulence, paired with intimate interior perspectives that detail structural stress, hollow room resonances, window rattles and whistling draughts.

Authentic Mediterranean Storm Character: Documents the unique sonic fingerprint of the Adriatic wind, characterized by sustained, heavy wind pressure punctuated by sudden, violent peaks and long, rolling air sweeps.

Pristine Ultra-Low-Noise Masters: Recorded at 192 kHz / 32-bit float utilizing the ultra-quiet FEL Clippy XLR EM272 omnidirectional microphones paired with the compact, high-headroom Zoom F3 field

recorder. The exceptionally low noise floor preserves the subtle micro-details of low-frequency rumble and high-frequency whistling without preamp hiss, allowing for heavy pitch-shifting, time-stretching, and dynamic processing.

Technical Specifications

Audio Quality: 32-bit / 192 kHz (Lossless, high-definition masters optimized for cinematic mixing and extreme sound manipulation)

Workflow: Fully UCS compliant (Universal Category System)

Microphones: FEL Clippy XLR EM272

Recorders: Zoom F3

Content: 37 WAV files (14 open exterior wind storm passes and 23 detailed interior structural resonance perspectives).
