Lamborghini Huracan 2014 sports car

The Lamborghini Huracan 2014 sports car sound library delivers 180 high-quality sound effects capturing the roaring V10 acoustic signature and high-performance engineering of the iconic Italian supercar. Designed for film sound designers, game audio engineers and post-production professionals, this collection provides complete operational coverage across engine compartment, exhaust pipe and interior cabin perspectives, ranging from high-RPM steady holds and gear passes to dynamic overtaking maneuvers, aggressive pass-bys and extensive interior Foley.

Captured using a synchronised multi-microphone setup combining directional shotgun and high-sensitivity omnidirectional capsules, this library isolates the naturally aspirated 5.2-liter V10 growl, high-frequency mechanical engine whine and thunderous quad-exhaust rumbles. The pristine 32-bit float capture at 192 kHz guarantees maximum dynamic headroom, pristine transient response and complete pitch-shifting flexibility for creative audio post-production and game engine integration in platforms like FMOD and Wwise.

Three-way multi-perspective tracking: Documents key driving maneuvers simultaneously across engine compartment, exhaust pipe and interior cabin perspectives for precise acoustic balancing and seamless perspective cuts.

Comprehensive driving and dynamic maneuvers: Covers steady-RPM holds (2000, 3000, 4000, 5000 RPM), individual gear passes (1st

through 6th), downshifting, overtaking, U-turns, corner turns, rapid speed ramps, fast/medium/slow arrivals, pass-bys and pull-aways.

Detailed mechanical and interior Foley: Features thorough coverage of door latches, front trunk (frunk) releases, fuel cap access, cup holder mechanisms, power window glass tracks, steering wheel controls, radio scroll toggles, horn blasts and tactile cockpit switches.

Pristine high-resolution capture: Recorded uniformly at 32-bit float / 192 kHz to capture full transient detail, high-frequency air movement and deep exhaust pressure without conversion artifacts.
